

Sprigawatt

We build robots that make it fun for all ages to grow healthy food in order to increase food literacy and provide a sustainable, healthy future

“As a cinematographer, I have sadly witnessed industrial food sky-rocket obesity and diabetes across the world” - John Tattersall, CEO

All children and teens need food literacy

We created a set of learning tools to help kids everywhere teach themselves and each other about food literacy...

...to provide a sustainable, healthy future
